PROJECTS

clone clut fit

- The cult fit website is basically for creating a healthy environment, so I try to clone this website as far as possible.
- I use HTML JavaScript CSS to create this project.
- https://clone-clut-fit.netlify.app

mailchimp.com

- Recently I Started working on cloning mailchimp.com. it's a marketing automation platform and email marketing service.
- I am using React framework and Chakra Ui for making this
